

# Wireframe

The design is a simple, minimalistic one. I have kept more white space to give a professional look. The sections have been separated with a heading.

The menu is a side navigation bar which was made to give it modern look.  
The mobile version has a hamburger icon for the main menu.

The wireframe illustrates a clean, modern website layout. At the top right, there's a large video player placeholder labeled "Header Video". Below it is an "About" section with a "TESTIMONIALS" heading and a "CONTACT US" form. To the right of the "About" section is a large rectangular area labeled "Lorem ipsum". Below the "About" section is a "Courses" section containing three boxes. At the bottom is a "Call to Action" button and a "Footer" section.

**Header Video**

**About**

**TESTIMONIALS**

**CONTACT US**

**>Lorem ipsum**

**Courses**

**Call to Action**

**Footer**

**TESTIMONIALS**

Your Name

Your Age

Your Message

# Jakob Nielson's Usability

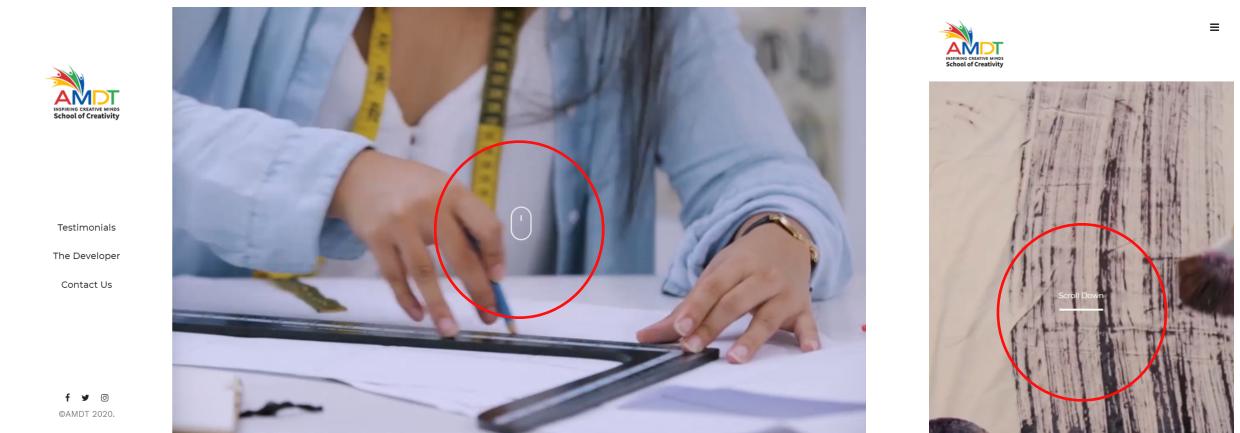

## 1. Visibility of system of status

In the testimonials page, once a user has entered their information it will be updated in the right hand side as a new testimonial.

The screenshot shows a web application interface. On the left, there is a form titled "Testimonials" with fields for "Your Name", "Your Age", and "Your Message". A "Submit" button is located below the message field. On the right, a sidebar titled "Testimonials" displays two entries: "Hello World" by "Sara, Age - 21, 22 hours ago" and "Test" by "Sara, Age - 21, just now".

## 2. Match between system & the real world

I have used icons to match the system & real world in places where people should scroll and swipe etc.

# Jakob Nielson's Usability

---

## 3. Consistency & Standards

I've maintained the same colours to match the AMDT logo throughout the website

The screenshot shows a website header with the AMDT logo. Below the logo are two blue rounded rectangular buttons with white text: 'Click Here' on the left and 'Get direction' on the right. To the right of these buttons is a large, stylized text area containing the words 'Creativity' in dark grey, 'Starts' in blue, and 'Here' in dark grey. Below this text is a small, faint link 'Get to know us!'. To the right of the text area is a section with the heading 'Visit us at' followed by the address '317A, Galle Road, Colombo 04, Sri Lanka'.

Visit us at  
317A, Galle Road,  
Colombo 04, Sri Lanka

## 4. Aesthetic & Minimalistic Design

The Design is very simple and minimal. More whitespace has been added to keep it very clean and appealing. Thus maintained throughout the website.

This screenshot displays a mobile-optimized version of the AMDT website. On the left, there is a sidebar with the AMDT logo at the top, followed by links for 'Testimonials', 'The Developer', and 'Contact Us'. Below these links are icons for Facebook, Twitter, and Instagram, along with the text '©AMDT 2020'. The main content area features the slogan 'Creativity Starts Here' in blue text above a photograph of several people in graduation gowns and caps. At the bottom of the page is a footer bar.

# Website Feedback

---

## Feedback

The mouse button on the mobile screen doesn't make sense

The slider for the courses is taking too much space and making the site complicated

The header of the homepage looks dull.

## Issue

As a scroll down icon, the mouse button was added to the desktop and mobile view both.

Used a slider with bigger images for courses section, so only two courses can be viewed at a time

The header of the homepage was just text "Creativity starts here!" and below that was an image.

## Solution

The scroll icon in the mobile view was changed to text and arrow icon.

The slider was replaced with image cards, where all six courses can be viewed at once

Added a video for the header of the homepage to make it more lively and appealing
